Independent Auditor's Report

Board of Trustees American Institute for Economic Research and Subsidiary Great Barrington, Massachusetts

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of the American Institute for Economic Research and Subsidiary, which comprise the consolidated statements of financial position as of December 31, 2014 and 2013, and the related consolidated statements activities and changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a reasonable basis for our audit opinion.

Board of Trustees American Institute for Economic Research and Subsidiary Page 2

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the American Institute for Economic Research and Subsidiary as of December 31, 2014 and 2013, and the changes in their net assets and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Notes to Consolidated Financial Statements December 31, 2014 and 2013

Note 1 - Organization and Summary of Significant Accounting Policies

a. Business Organization

American Institute for Economic Research, Inc. (AIER) began operations during December 1933 and was incorporated on May 15, 1939, under the provisions of Chapter 180 of the General Laws of Massachusetts as an organization operated for charitable, scientific, and educational purposes.

During October 1978, American Investment Services, Inc. (AIS) was incorporated under the General Laws of Delaware. AIER is the sole stockholder of AIS. AIS began operations as an investment advisor in February 1979, when the SEC approved AIS's registration.

AIER is trustee of two pooled income funds: RLI Stock Fund I and RLI Stock Fund II. The pooled income funds are subject to split-interest agreements with donors. The charitable remainders become available to AIER upon expiration of the income beneficiaries' interests. When assets are contributed to the pooled income funds, the beneficiaries are assigned units of participation in the funds. These units are used to determine each beneficiary's share of distributable net income and to value the remainder interests when the beneficiary's income interest is expired. Capital gains are retained within the trust. All investment income, less associated expenses, is distributed to the income beneficiaries of the funds on a quarterly basis.

AIER is trustee and charitable remainderman of numerous charitable remainder unitrusts, each subject to a fixed rate payout obligation. One trust instrument has been approved by the Internal Revenue Service and the others follow the approved form in all material aspects. Upon expiration of each trust term, the balance of the trust assets is distributed to AIER as the charitable remainderman.

AIER and AIS are referred to collectively herein as the Organization.

b. Consolidated Financial Statements

The financial statements include the accounts of AIER and its subsidiary, AIS. All significant intercompany transactions and accounts are eliminated. The accompanying consolidated financial statements reflect the terms of rental and shared cost agreements with respect to the use of facilities and certain services provided by AIER to AIS. Rent expense is based on the rental value for comparable space. Charges for shared personnel costs have been apportioned based upon time and materials. The totals of both the shared cost agreement and personnel costs were \$215,590 and \$197,971 for the years ended December 31, 2014 and 2013, respectively.

c. Functional Areas

The statements of activities and change in net assets include the revenues and expenses allocable to the major areas of program activities conducted by the Organization.

AIER

AIER researches topics of current and long-term interest in the field of economics. The results of the research activity are disseminated to the public through periodic economic reports and occasional booklets in the areas of fiscal and monetary economics, reflecting detailed analyses of particular subjects with some emphasis on personal economic issues.

Notes to Consolidated Financial Statements December 31, 2014 and 2013

Note 1 - Organization and Summary of Significant Accounting Policies

c. Functional Areas - Continued

AIER - Continued

AIER conducts fellowship programs in economics. Summer Fellowships are awarded to graduate and college seniors majoring in economics, finance, business, or related fields. Summer Fellows attend seminars, conduct independent research, and study during the summer sessions at AIER. Visiting Research Fellows conduct research in fields such as money, banking, and credit; public and personal finance; economic and monetary policy; economic methodology, and the role of individual freedom, private property, and free enterprise in economic progress.

AIER hosts periodic conferences on topics of current interest in the areas of economics, finance, and business. Leading scholars are invited to participate, and the results are published and disseminated to the public.

Management and general expense includes the functions necessary to provide coordination and articulation of AIER's program strategy, to secure proper administrative functioning for AIER, the costs associated with maintaining AIER's Planned Giving programs, and to manage the financial responsibilities of AIER.

Fundraising expense includes the structure necessary to encourage and secure financial support (both unrestricted gifts and long-term split-interest gifts).

AIS

AIS provides asset investment management and investment advisory services to individuals, trusts, endowments, 401(k) plans, pension plans, foundations, and nonprofit institutions based on AIER's research and publishes a monthly newsletter.

d. Basis of Accounting and Financial Statement Presentation

The accompanying consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) for not-for-profit entities.

e. Estimates

The preparation of the consolidated financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues, gains, other support, and expenses during the reporting period. Actual results could differ from those estimates.

f. Fair Value Measurements

The Company reports certain assets and liabilities at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note 11 for additional information.

g. Cash Equivalents

Management considers all certificates of deposit and money market accounts readily converted to cash to be cash equivalents. Money market accounts are held separately and reported with investments held under split-interest agreements.

Notes to Consolidated Financial Statements December 31, 2014 and 2013

Note 1 - Organization and Summary of Significant Accounting Policies - Continued

h. Investments

AIER's marketable securities are carried at fair value as determined by quoted market prices. The net realized and unrealized gains (losses) on investments are reflected in the statements of activities and changes in net assets. AlS classifies its investments as available-for-sale securities. Available-for-sale securities are valued at fair value as determined by quoted market prices, with net unrealized gains and losses, net of tax, included in other comprehensive income. The impact of this recognition has been eliminated in the consolidation process.

The Organization evaluates securities for other-than-temporary impairment at least on an annual basis, and more frequently when economic or market concerns warrant such evaluation. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near term prospects of the issuer, and (3) the intent and ability of AIER to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value. Management determined that there were no other-than-temporary impairments as of December 31, 2014 and 2013.

Realized and unrealized gains and losses are included in the statements of activities and changes in net assets.

i. Accounts Receivable

Accounts receivable are carried at original invoice amount less an estimate made for doubtful receivables based on a review of all outstanding amounts on a periodic basis. Management determines the allowance for doubtful accounts by identifying troubled accounts and by using historical experience applied to an aging of accounts. Management determined that no allowance was necessary at both December 31, 2014 and 2013.

j. Property and Equipment, Net

Property and equipment are reported at cost, net of accumulated depreciation. Expenditures for acquisitions, renewals, and betterments are capitalized, whereas maintenance and repair costs are expensed as incurred. When property and equipment are retired or otherwise disposed of, the appropriate accounts are relieved of costs and accumulated depreciation, and any resultant gain or loss is credited in the statements of activities and change in net assets.

Depreciation is provided for in amounts to relate the cost of depreciable assets to operations over their estimated useful lives on a straight-line basis. The estimated lives used in determining depreciation vary from five to thirty years.

Long-lived assets to be held and used are tested for recoverability whenever events or changes in circumstances indicate that the related carrying amount may not be recoverable. When required, impairment losses on assets to be held and used are recognized based on the excess of the asset's carrying amount over the fair value of the asset. There are no impairments of long-lived assets at December 31, 2014 and 2013.

Notes to Consolidated Financial Statements December 31, 2014 and 2013

Note 1 - Organization and Summary of Significant Accounting Policies - Continued

k. Split-Interest Agreements

AIER records its interest in trusts at fair value of the related assets with a corresponding liability for the actuarially determined present value of payments to be made to designated beneficiaries. This liability is measured using discount rates and actuarial assumptions reflecting the terms of the agreement and the estimated time of receipt. The change in the value of split-interest agreements represents year-to-year changes in the actuarial life of beneficiaries, new gifts, remainders released from the trust funds, and changes in the value of assets held by the trust.

I. Accrued Paid Leave

Accrued paid leave is computed on the basis of each employee's earned but unused paid leave days, multiplied by the employee's current daily rate.

m. Unearned Subscription Income

Income from subscriptions is initially deferred and is recognized over the subscription terms.

n. Revenue Recognition

The Organization recognizes revenue when amounts and timing are fixed or determinable, and collection is reasonably assured. Recognition criteria by revenue type is as follows:

- Revenue from unrestricted contributions is recognized when made;
- Revenue from donor-restricted contributions and related investment earnings are recognized when restrictions lapse;
- Revenue from the sales of books and publications is recognized when an order is received, and
- Investment management fees and investment advisor fees to manage clients' funds are recognized in the period in which they apply.

o. Recognition of Donor Restrictions and Board Designated Net Assets

The net assets of the Organization and changes therein are classified and reported as follows:

Unrestricted net assets are not subject to donor-imposed restrictions. Unrestricted net assets consist of undesignated funds, Board designated funds, investment in property and equipment, and equity interest in the subsidiary.

The Board of Trustees unanimously approved the following Board Designations on Unrestricted Net Assets:

- A \$500,000 reserve as of December 31, 2014 and 2013, for legal defense beyond insured coverage, other unforeseen events, or affirmative legal actions. Drawing on this reserve requires Board approval.
- A reserve equal to the amount required to balance the Board-approved operating budget.
 This reserve was \$4,846,849 and \$3,936,122 as of December 31, 2014 and 2013, respectively.
- A reserve of \$2,958,179 and \$2,958,437 as of December 31, 2014 and 2013, respectively, for investment of property and equipment.

Notes to Consolidated Financial Statements December 31, 2014 and 2013

Note 1 - Organization and Summary of Significant Accounting Policies - Continued

o. Recognition of Donor Restrictions and Board Designated Net Assets - Continued

Temporarily restricted net assets are subject to donor-imposed stipulations that will be met by the passage of time. They include the net assets under the two RLI Stock Funds (pooled income funds), the charitable remainder unitrusts, and bequests to be received in future years.

All donor-restricted support, and the related investment earnings, are reported as increases in temporarily restricted net assets depending on the nature of the restriction. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets.

p. Donated Assets and Services

Donated services and other noncash donations are recorded as contributions at their estimated fair values at the time of contribution.

q. Advertising

AIER records advertising costs as expenses when they are incurred. Advertising expense was \$20,566 and \$10,261 for the years ended December 31, 2014 and 2013, respectively.

r. Tax Status

AIER is a not-for-profit organization as described in Section 501(c)(3) of the Internal Revenue Code and is exempt from federal income taxes. AIER has been classified as a publicly-supported organization that is not a private foundation under Section 509(a) of the Internal Revenue Code.

AIER files a Form 990 annually with the Internal Revenue Service. When annual returns are filed, some tax positions taken are highly certain to be sustained upon examination by the taxing authorities, while other tax positions are subject to uncertainty about the technical merits of the position or amount of the position's tax benefit that would ultimately be sustained. Management evaluated AIER's tax positions, including interest and penalties attributable thereto, and concluded that AIER had no tax positions that required adjustment in its consolidated financial statements as of December 31, 2014 and 2013.

Forms 990 filed by AIER are subject to examination by the Internal Revenue Service. AIER is no longer subject to examination for the years ended 2010 and prior.

AIS is a taxable corporation.

AlS records income taxes using the asset and liability method whereby deferred tax assets and liabilities are determined based on the differences between the financial statement and tax basis of assets and liabilities as measured by the enacted tax rates which will be in effect when these differences reverse.

When income tax returns are filed, some tax positions taken are highly certain to be sustained upon examination by the taxing authorities, while other tax positions are subject to uncertainty about the technical merits of the position or the amount of the position's tax benefit that would be ultimately sustained. The portion of the benefits associated with tax positions taken that exceeds the amount measured as previously described is reflected as a liability for unrecognized tax benefits in the accompanying consolidated statements of financial position and includes, where applicable, accrued interest and/or penalties attributable to the unrecognized tax benefits.

Notes to Consolidated Financial Statements December 31, 2014 and 2013

Note 1 - Organization and Summary of Significant Accounting Policies - Continued

r. Tax Status - Continued

AIS presently discloses or recognizes income tax positions based on management's estimate of whether it is reasonably possible or probable that a liability has been incurred for unrecognized income taxes. Management has concluded that AIS has taken no tax positions that require adjustment in its consolidated financial statements as of December 31, 2014 and 2013.

AlS's tax returns are subject to examination by taxing authorities. AlS is no longer subject to tax examination for the years ended 2010 and prior.

s. Allocation of Expenses

Direct expenses are charged directly to the related research or education program. Direct expenses that relate to more than one program are allocated between and charged to the appropriate programs using specific allocation methods. Expenses that are not directly identifiable with a specific program, but provide for the overall support and direction of the Organization, are charged to management and general expenses.

t. Subsequent Events

The Organization has evaluated subsequent events for potential recognition or disclosure through March 19, 2015, the date the consolidated financial statements were available to be issued.

Note 2 - Investments

A summary of the Organization's investments is as follows:

	December 31, 2014					
		Unrealized	Fair			
	Cost	Gains	Losses	Value		
Equity securities Fixed income securities	\$ 11,374,760 3,194,493	\$ 4,464,071 24,200	\$ 347,157 20,063	\$ 15,491,674 3,198,630

Accrued interest	165,721			165,721		

Notes to Consolidated Financial Statements
December 31, 2014 and 2013

Note 4 - Split-Interest Agreements - Continued

Liabilities Under Split-Interest Agreements

The obligations as trustee for each pooled income fund and charitable remainder trust are reported herein as liabilities under split-interest agreements. The obligations are estimated at the time of the agreements (pooled income or unitrust) based on the average life expectancies of the beneficiaries and the expected rate of return on invested assets. Any excess amount of the gift over the estimated liability is recorded as a temporarily restricted net asset. The obligations are subject to adjustments and reflect amortization of any discount, reevaluation of the present value of estimated future payments, and any change in actuarial assumptions. Such adjustments, if any, are recorded in the statement of activities as a change in value of split-interest agreements. The assumptions used in computing the liabilities under split-interest agreements include discount rates and life expectancies based on published single and multiple life expectancy tables. The discount rate used for the years ended December 31, 2014 and 2013, was 7.6% and 7% respectively.

Note 5 - Line-of-Credit

AlS has available a \$250,000 working line-of-credit. Borrowings under the line-of-credit are payable on demand and are secured by all assets of AlS. Borrowings under the line-of-credit bear interest at *The Wall Street Journal* prime rate (3.25% as of December 31, 2014 and 2013). No amounts were outstanding under the line-of-credit at December 31, 2014 and 2013.

Note 6 - Net Assets and Stockholder's Equity

A summary of the net assets and stockholder's equity for AIER and AIS is as follows:

	December 31, 2014							
	Д	IER		AIS	EI	iminations	C	onsolidated Total
Common stock, no par value, 1,000 shares authorized, 400								
shares issued and outstanding	\$	-	\$	355,154	\$	(355, 154)	\$	-

Notes to Consolidated Financial Statements December 31, 2014 and 2013

Note 7 - Change in Value of Split-Interest Agreements

A summary of the components of the change in value of split-interest agreements is as follows:

	Years Ended December 31,			
	2014	2013		
Investment income	\$ 4,341,813	\$ 4,062,404		
Realized gains on investment transactions	10,403,018	4,801,191		
Unrealized gain on investments	433,801	1,857,119		
Change in liabilities under split-interest agreements	(7,737,730)	(2,633,207)		
Distributions to beneficiaries	(4, 154, 166)	(3,866,907)		
Investment advisory fees	(416,999)	(387,646)		
Other	(39,265)	(38,087)		
	¢ 0.920.470	¢ 2704.967		
	\$ 2,830,472	\$ 3,794,867		

Note 8 - Defined Contribution Plan

The Organization offers a defined contribution plan that includes a discretionary contribution equal to a percentage of each eligible employee's compensation. For the years ended December 31, 2014 and 2013, the Organization's contributions were \$132,963 and \$105,064, respectively.

Note 9 - Income Taxes

Components of income tax expense included herein as expense of AIS, consist of the following:

	<u> </u>	Years Ended December 31,			
		2014	2013		
Federal State	\$		\$	83,254 28,750	
	<u>\$</u>	130,503	\$	112,004	

The provision for income taxes differs from the amount of income tax determined by applying the applicable U.S. statutory federal income tax rate to pretax income from continuing operations as a result of state taxes, accrued paid leave, and depreciation differences.

Notes to Consolidated Financial Statements December 31, 2014 and 2013

Note 10 - Risks and Uncertainties

a. Concentrations of Credit Risk - Cash

The Organization maintains cash balances at various financial institutions. Accounts at each institution are insured by the Federal Deposit Insurance Corporation (FDIC) up to certain limits and the Securities Investor Protection Corporation (SIPC). At times, the Organization has bank deposits in excess of amounts insured by the FDIC and SIPC.

b. Fair Value of Marketable Securities

AIER has investments in a combination of mutual funds, corporate stocks, government and corporate bonds, and other fixed income securities. Marketable securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain marketable securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the net assets of AIER.

Note 11 - Fair Value of Financial Instruments

The framework for measuring fair value includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The following three levels of inputs that may be used to measure fair value:

- Level 1 Unadjusted quoted market prices in active markets for identical assets or liabilities.
- Level 2 Observable inputs other than quoted market prices and can include active markets and markets not considered to be active.
- Level 3 Unobservable inputs that are supported by little or no market activity.

Fair value measurement level within fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Corporate Bonds: Valued at third-party evaluated appraised prices that maximize observable quantitative and qualitative inputs currently available on comparable securities with similar features (type of issuer, credit rating, coupon, maturity, etc.) and apply yield levels that reflect comparable credit and liquidity risks.

Equity Securities, Foreign, and U.S. Government Obligations: Valued at the closing price reported on the active market on which the individual security is traded.

Investment in Real Estate Limited Partnership: Fair value is the sum of the estimated fair value of each property in the portfolio plus the undistributed proceeds and cash reserves, if any.

Notes to Consolidated Financial Statements December 31, 2014 and 2013

Note 11 - Fair Value of Financial Instruments - Continued

Liabilities Under Split-Interest Agreements: Fair value is equivalent to the present value of the future payments to be made and any changes in actuarial assumptions.

A summary of assets and liabilities measured at fair value on a recurring basis is as follows:

	December 31, 2014
